

MAN & MACHINE presents

Really Cool

Medical keyboard

You'd never compromise patient health. Why compromise on your keyboard? Our medical keyboards are the #1 choice among uncompromising users in hospital, clinical and dental environments—wherever infection control is imperative.

Our hygienic white medical keyboards are fully sealed, seamless and long term resistant to cleaning with surface disinfectants, such as alcohol. Thanks to its TruLock locking mechanism, one touch is all it takes to prevent unwanted commands or screen gibberish during a clean. The USB cable can stay connected. We understand that cleaning can go beyond a quick wipe. You can go ahead and submerge our medical keyboards for a thorough disinfection. Furthermore our medical keyboards comply with the industry standards for your electrical and operational safety. All of this without compromising usability because the Really Cool keyboard is widely praised for its unparalleled typing comfort.

7 Requirements for a Medical Grade Keyboard

- Fully sealed
- Disinfectable
- Hygienic white
- Lockable
- Easy to use
- Electrically safe
- No drop hazard

Don't compromise. Accept no less than the standard by which disinfectable keyboards are measured — Man & Machine medical Cool keyboards.
