# Security Kiosk Stand

for Galaxy Tab A 9.7", Galaxy Tab S2 9.7", and Galaxy Tab S3 9.7"

## Security Kiosk Stand

This kiosk stand melds style, functionality, and security in one compact package for your Samsung Galaxy Tab. The minimalist, modern enclosure is engineered to allow full access to your tablet's ports, jacks, buttons, and cameras, while securing the device inside with a powerful key lock in the rear. The interior is outfitted with scratch-protective padding to minimize risk of damage to your tablet while in use. The tablet enclosure tilts side to side and rotates a full 360 degrees for portrait and landscape orientations, making this kiosk stand a perfect fit for a retail point of sale, reception desk, or classroom. Also included is an optional steel security cable, which affixes to one of the K-slots on the stand base or enclosure and attaches at the other end to any permanent fixture. This complete tablet security package even includes a stylus and elastic tether, plus a built-in holder on the stand base. The kiosk mounts easily to a desk, table, countertop, or other flat surface using a set of included mounting hardware.

### Features:

- Durable metal security enclosure keeps tablet protected from theft
- Enclosure tilts back and forth and rotates a full 360 degrees
- Enclosure design allows full access to charging port, buttons, and cameras
- Stand base mounts to tabletop or counter with included hardware
