USB C Multiport Video Adapter - 4K 60Hz UHD Portable 5-in-1 USB Type C to HDMI 2.0, Mini DisplayPort, VGA or DVI (1080p) - 95W PD Passthrough - Cable Management - Aluminum

Product ID: CDPVDHMDPDP

This USB-C multiport video adapter offers a portable solution for connecting your USB Type-C laptop to a VGA, DVI, HDMI or Mini DisplayPort (mDP) display. It features USB Power Delivery, so you can power your laptop while outputting video using the same USB-C port.

This USB-C adapter supports USB Power Delivery up to 95 watts and features an additional USB-C port. You can charge your laptop using its USB-C power adapter, even while you output video. Many laptops support charging through a USB-C port with Power Delivery, check your specifications to confirm compatibility.

Carry one adapter instead of four. This versatile 4-in-1 monitor adapter lets you connect your USB-C laptop to any display. With its durable aluminum enclosure and a magnetic retainer that secures the breakout cable in place while you're not using it, the adapter is rugged enough to carry in your travel bag.

The HDMI and mDP outputs support UHD 4K resolutions, providing four times the picture quality of high-definition 1080p. All of the outputs (HDMI, mDP, VGA, DVI) support high-definition resolutions up to 1920 x 1200. The adapter is compatible with USB-C DP Alt Mode devices.

The USB-C adapter has a Space Gray trim and built-in USB-C cable designed to match your Space Gray MacBook, or MacBook Pro.

CDPVDHMDPDP is backed by a StarTech.com 3-year warranty and free lifetime technical support.
