

PAD-LUMW9

Locking Ultra-Modern Rotating Table Stand with Cable Management

For iPad (Gen5-6), iPad Pro 9.7, and iPad Air (Gen 1-2)

Easily adjusts for horizontal or vertical views

Locking Ultra-Modern Rotating Table Stand with Cable Management

With a key-locking case fixed to a sturdy aluminum stand, the Locking Ultra-Modern Rotating Table Stand is your best choice for any modern store, point of sale, or classroom. After snapping conveniently into the crisp white case, your device is secured with a reliable keylock. Thanks to the ball-swivel, this stand allows you to spin the device 360 degrees, rotate it 180 degrees from left to right, and position the screen at whatever angle you want for easy, ergonomic viewing. Included with the stand are two mounting options: the 1/2" bolt and cable-management washer allows you to take advantage of any large holes already existing in your mounting platform, while the mounting skirt allows you to fix the device to a solid surface. The Locking Ultra-Modern Rotating Table Stand is compatible with the iPad (Gen. 5-6), iPad Pro 9.7, and iPad Air (Gen. 1-2).

Features:

- Key-locking case deters theft
- Mounting skirt allows stand to attach to any surface
- Mounting bolt takes advantage of existing fixtures
