

H TIMING PULLEYS

0.500" Trapezoidal Pitch

For 3" Wide Belts

Hub and Flanges

Steel/Iron

Black Oxide Plating

Minimum Plain Bore

Part Number	No. of Teeth	Type	Pitch Dia. (in)	Out. Dia. (in)	Flange Dia. (in)	Bore (in)	Face Width (in)	Overall Length (in)

Do you need multiple delivery dates throughout the year? Contact our sales engineers to discuss blanket order options to take advantage of quantity discounts.

Blanket orders:

- Satisfy recurring requirements
- Save time and reduce administrative costs by eliminating repetitive purchase orders
- Permit purchasing to leverage buying power through volume purchasing
- Reduce procurement lead time, especially for parts not commonly held in stock

Blanket orders save you from having to hold greater than necessary amounts of stock, save you the trouble and expense of processing frequent purchase orders, and reduce the lead time required for recurring orders.

ROLLER CHAIN IS NOT YOUR ONLY OPTION!

Timing belt drives are increasingly replacing inefficient roller chain sprockets for the transfer of power from shaft to shaft, torque multiplication, speed reduction, speed increase, and shaft synchronization. B&B Manufacturing, the recognized leader in timing belt drives, continues to meet all of your needs for timing belt pulleys, timing belts, roller chain sprockets, timing pulley bar stock, timing pulley flanges, and tapered bushings across a broad range of industrial applications including ACHE (Air Cooled Heat Exchangers), conveyors, and packaging. Choose from a full line of quality power transmission products featuring leading-edge technologies that deliver competitive advantages over many of the substandard components from our competitors.
