

White Cut Towels

DESCRIPTION

Black Swan's White Cut Towels are 100% cotton. These are made from white cut up robe and Turkish towel pieces, making for a thicker all-purpose rag. The material is highly absorbent. Great for heavier duty jobs, such as in auto shops and manufacturing facilities. These rags can be washed and reused for long term use. Black Swan's **White Cut Towels** are low cost and the recycled material makes them an eco-friendly option.
