Product Information

The new LL Series Flashlight from Race Sport Lighting provide up to over 1-mile of directional light range generated by our long range laser illumination light scope in the the flashlight. Which means that you can see 10 times farther at night than any traditional LED flashlight. The Laser flashlights have a Laser light scope in the middle for a very focused straight beam that travels as far as 1.2 miles down the road or path. This is the 1st generation of premium laser flashlights released by Race Sport lighting as we continue to strive to provide long range flashlights that people can use in their adventures and travels in secluded destinations. The heavy duty construction will give you years of use and Laser light sources will give you the safety you need and deserve out of a light bar. Our lasers have been registered with the FDA, and are great for many offroad and on road excursions. SAFETY USE NOTE -Because of the extreme power of these flashlights, it is highly recommended
