

STAGE SLINGS

(FOR SCENARIOS, THEATERS OR OTHER ENTERTAINMENT STAGES)

BLACK SLING-FLEX SLINGS

Designed for Suspension Applications where metal slings are required.

When metal slings are required for the sound and stage lighting suspension, the best and more efficient solution is the use of Slings SLING - FLEX from Cargo Lift.

The core of SLING - FLEX round slings is made of Galvanized Steel Aircraft Type Cable wound in an endless configuration. This steel cable core is covered in a double black polyester cover.

The result is a very flexible and easy-to-use sling that complies with all current safety codes. Stretching at nominal capacity is approximately 1%.

There are many advantages:

Increased security:

- Better cut resistance
- Greater resistance to heat (200°C)
- Fits to the load to securely fasten
- Can be ordered with a window that allows the complete inspection of the nucleus.

Save time:

- No backup equipment is required
- Fewer components for inventory and transportation
- Greater flexibility

Save money:

- No more wire rope slings or chain slings
- Less weight, therefore, the freight cost decreases.

BLACK ROUNDUP® ROUNDSLINGS

These lightweight slings are ideal for easy and discrete suspension of stage sound and lighting equipment. The black material of the cover helps the sling to mix in its surroundings without attracting attention.

Round Lift and Sling-Flex slings from Cargo Lift maintain the basic features, benefits and benefits of traditional Round Slings, except the color coding. Like Cargo Lift RoundUp® round slings, these slings feature a double protective cover.

COLOR	PART NUMBER	VERTICAL	LINKED	IN "U"	MINIMUM LENGTH	APPROXIMATE DIAMETER	APPROXIMATE WEIGHT BY FOOT
BLACK	BENR1	2600	2100	5200	3'	.625"	0.3 LB
BLACK	BENR2	5300	4200	10600	3'	.825"	0.4 LB
BLACK	BENR3	8400	6700	16800	3'	1.125"	0.5 LB
BLACK	SLING - FLEX	5300	4200	10600	3' **	.825"	0.75 LB

** THE MAXIMUM LENGTH FOR THE SLING - FLEX IS 9 FEET.
