

2019–2023 Chevrolet & GMC Silverado/Sierra Light Duty Crew Cab and 2020–2023 Silverado/Sierra Heavy Duty Crew Cab LOCKBOX – Underseat Storage

Fits DU-HA Part Number
10410

Installation Instructions:

1 Install the Du-ha Lockbox by following the instructions included with the divider kit. **Note:** The factory knob for holding the jack tools in place is too large to fit inside the Lockbox so you will need to remove the knob and holder from the jack tools. Use the provided knob and washer and thread onto the post the tools were on to secure Lockbox in vehicle. Before you place the jack tools back in the Du-ha install the driver's side gun rack (see note below). Flip the jack tools bag around so the end of the tool bag will point forward and slide into the space in the back of the driver's side gun rack (as shown). On the passenger's side you might need to press down on the Lockbox in order to get the jack back into its bracket.

Note: To install the drivers side gun rack slide it in from the top going straight into slot and pull out on front of Du-ha.

2 To lock the Lockbox insert the key into the lock with the teeth on the key pointing to the outside of the vehicle. Once the key is inserted turn the key clockwise to lock the driver's side and counter-clockwise to lock the passenger's side. When locked the teeth on the key should be pointing downward. Remove the key.

3 To Un-lock the Lockbox insert the key into the lock with the teeth on the key pointing downward. Turn the key counter-clockwise to unlock the driver's side and clockwise to unlock the passenger's side.

NOTE: You might need to push down slightly to get the latch to lock and un-lock.

Safety Instructions:

Warning: Make sure the DU-HA is secured in the vehicle according to installation instructions. Do not store explosives or hazardous materials in the DU-HA. Do not place loaded guns in the DU-HA. For further instructions refer to truck owner's manual or contact DU-HA, Inc.
