# Stand-Tall®
Preassembled Wall Systems
Mounting Instructions

Tools Needed (Not Included): Hammer, screwdriver, pencil

1. Hold to wall or partition in desired location and mark all open "keyholes" (located in mid-section of panels - 4 or 6) with pencil at top of keyhole.

2. Drive fasteners into the pencil marks with hammer.

3. Expand anchors by turning screw to right until tight.

4. Remove screws and mount your Wall System.

5. Replace screws and tighten.

PLEASE NOTE:
If button fasteners should work loose during shipping, simply snap them back in place.

Should one of your Literature Wall System Units break or crack, cut off the button fasteners and remove unit. See your dealer for a replacement unit.
