

Avert[®] Sporidical Disinfectant Cleaner Wipes

A ready-to-use, pre-wetted, disinfectant cleaner wipe that also kills *Clostridium difficile* (*C. diff*) spores on hard, non-porous surfaces such as those found in hospitals and other healthcare facilities.

Features & Benefits

- Effective in 4 minutes against *Clostridium difficile* (*C. diff*) spores. Cleans, disinfects, and deodorizes in one labor-saving step
- Bleach-based formula means no quat-binding concerns. 1 minute contact time effective against a broad spectrum of pathogens including bacteria, antibiotic resistant bacteria, viruses, and fungi
- Meets minimum active ingredient requirements for CDC, SHEA, APIC and AORN

Applications

- Hard surface cleaning and disinfection
 - Designed for disinfecting medical hard, nonporous inanimate surfaces including: glass, glazed porcelain and stainless steel. Not recommended for use on: aluminum, brass, chipped enamel, clear plastic, copper, finished floors, natural marble, painted surfaces, and silver.
- Note: This product is compatible with the listed materials. If product is intended to be used on other surfaces, it is recommended to test product by applying to a small discrete area to determine compatibility before proceeding with its use or contact a Diversey representative

Avert® Sporocidal Disinfectant Cleaner Wipes

Use instructions

Special Instructions for Cleaning Prior to Disinfection against *Clostridium difficile* spores:

Personal Protection:

- Wear appropriate barrier protection such as gloves, gowns, masks or eye covering

Cleaning Procedure:

- Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with a clean cloth, mop, and/or sponge saturated with the disinfectant product. Cleaning is to include vigorous wiping and/or scrubbing, until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned last. Do not reuse soiled cloths

Infectious Materials Disposal:

- Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal

Disinfection Procedure:

- Wipe hard, nonporous, inanimate, environmental surfaces with towelette until thoroughly wet
 - Surfaces must remain wet for 4 minutes
 - Wipe surfaces and let air dry
- *Rinse with potable water as necessary

For Use as a One-Step Cleaner/Disinfectant:

- Pre-clean heavily soiled areas.
 - Wipe hard, non-porous inanimate environmental surfaces with towelette
 - Surfaces must remain wet for 1 minute
 - Wipe surfaces and let air dry
- *Rinse with potable water as necessary
