K2

## Powder Oxygen Bleach Presoak/Destainer

Powder, percarbonate oxygen destainer for plastics and china. Suitable for presoaking/ destaining of all types of heavily-soiled substrates. It contains a blend of cleaning agents and alkali for removal of dried-on food from cups and dishes.

### Features & Benefits

- Designed to remove stains from clean plastic ware and china
- Contains a blend of cleaning agents and alkali for removal of dried-on food from cups and dishes
- Effectively removes coffee and tea stains due to active oxygen and cocoa and milk stains by alkali source
- Prevents scaling in hard water conditions when used as directed
- Easy-to-rinse, leaves no residue
- Available in convenient packets for portion dose, and 5 gal. pail

### Applications

- An all-purpose cleaner for coffee brewing equipment, glass, stainless steel, plastic, china and porcelain
- Suitable for presoaking/destaining of all types of heavily soiled substrates, such as plastic cups, plates, flatware, utensils, glass coffee pots, coffee urns and tea urns

# Suma<sup>®</sup> Shine K2

Powder Oxygen Bleach Presoak/Destainer

## Use Instructions

- Suma<sup>®</sup> Shine is designed to remove stains from clean plastic ware and china
- Use a solution of 1/2–2 oz. Suma<sup>®</sup> Shine per gallon of water at 49°C to 66°C (120°F to 150°F)
- Soak ware in the solution for 15 minutes to 2 hours depending on amount of stains and soil
- Additional soaking may be required for extreme staining
