

FAST ORANGE®

Infused with patented
MicroGel™
TECHNOLOGY

CHOOSE PETROLEUM SOLVENT-FREE FOR CLEAN & HEALTHY HANDS!

feature chemicals that are good at removing dirt, but often harmful to skin. To work effectively, such lotions and creams use petroleum solvents that can remove the protective barriers from the skin, preventing hands from staying healthy and hydrated after repeated cleaning.

WHY AVOID PETROLEUM SOLVENT?

- Wash away natural fats from the skin which is the skin's natural protection barrier
- Can cause severe irritation or sensitizing of the skin, including drying and chapping
- Can leave hands with a residual petroleum odor

Did you know that some of the top-selling industrial hand cleaning lotions and creams on the market are possibly doing more harm than good when it comes to keeping workers' hands healthy? The reason is because these formulations
