## **WARNING!**

### **To Reduce the Risk of Fire, Electric Shock, or Injury to Persons:**

- Clean the lamp only with a dry towel
- Lamp is for indoor use only.
- Use the unit only with the power adaptor delivered with the lamp.
- If the supply cord or adaptor is damaged, it must be replaced with an identical model in order to avoid a hazard.
- This product contains LED devices. To prevent eye damage or risk to eyes, DO NOT stare into the light beam at close range.

**Please note:** These important safety warnings are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care must be used with any electrical product.

## **OPERATION PROCEDURE : IMPORTANT**

1. Insert the adaptor into back of lamp base.
2. Plug the adaptor into power outlet. Turn on the light with rocker switch at back of the lamp.
3. Adjust the angle and height of the lamp by moving the arm to your desired position.  
Enjoy your new lamp.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## **Care and Maintenance**

Always ensure the product is unplugged from the electrical outlet and allowed to cool before assembling, disassembling, relocating, servicing, or cleaning it. Clean the product with a soft cloth; do not use liquids, abrasive cleaners, or solvents.
