## How to Use in Your Facility

### 1 PREPARE PRODUCT

#### To Clean/Deodorize:

Use at full strength\*\* or dilute ¼ cup (2 fl. oz.) per gallon of warm water

#### To Clean Soap Scum and Greasy Soil:

Use at full strength\*\*

#### To Sanitize/Disinfect:

Use full strength\*\* or dilute 1 fl. oz. with 5 fl. oz. of warm water

### 2 APPLY TO SURFACE

Apply to surface with cloth, sponge, mop or trigger spray until thoroughly wet. Wipe with cloth, sponge, or mop. When using at full strength, rinse thoroughly with clean water.

### 3 CONTACT TIME

#### To Sanitize:

Leave for 60 seconds before wiping

#### To Disinfect:

Leave for 6 minutes before wiping

### 4 TO CONTROL MOLD & MILDEW

Apply to pre-cleaned surface. Let surface remain wet for 3 minutes then allow to air dry. Repeat application at weekly intervals or when mold and mildew growth appears.

Rinse all food contact surfaces with water after use. Do not use on eating/cooking utensils, glasses/dishes or cookware, unfinished, oiled, or waxed wood floors. On painted surfaces test a small inconspicuous area first. Rinse bathtub/shower surfaces with water after using product.

**KILLS 99.9% OF BACTERIA & VIRUSES\***

## Effective Against These Pathogens
