

# PRODUCT SAFETY DATA SHEET

## 0. INTRODUCTION

This document provides a Product Safety Data Sheet (PSDS) for nonwoven on a voluntary basis. It is not legally requested but must be considered as information. It is based on the EC recommendation for Material Safety Data Sheet (Commission directive 2001/58/EC)

The PSDS is intended to be forwarded to the next step downstream from the nonwoven manufacturer i.e. to the first consumer. The information contained herein corresponds with the supplier's level of knowledge at the time of issue. It does not constitute any contractual guarantee in respect of product properties.

## 1. IDENTIFICATION OF THE PRODUCT AND THE COMPANY

### 1.1 Identification of the product

Product name: Legacy  
Product code: 01-690

### 1.2 Company identification

Company/Plant where the product is produced

**Name:** Legacy  
**Address:** 3 Security Dr. Ste 301, Cranbury NJ 08512

**Phone:** 800.521.4190  
**Fax:** 800.449.0877

Person responsible for the product safety  
**Contact Person:** Darren Slosberg

# PRODUCT SAFETY DATA SHEET

## 2. HAZARDS IDENTIFICATION

No hazardous product under normal conditions.  
Accidental thermal decomposition or melting state can present hazards.

## 3. COMPOSITION

2.1 Nonwoven	Spunlace
2.2 Nature of the fiber(s)	Cellulose and Polypropylene
2.3 Web surface treatment concentration >1%	None
2.4 Binder	None
2.5 Additives	Yes
2.6 Other Major components	None
2.7 Chemicals (in relevant concentrations) that are in the list of hazardous constituents	None

## 4. FIRST-AID MEASURES

**Under normal condition,**

4.1 Inhalation	no specific measure to be taken
4.2 Skin contact	no specific measure to be taken
4.3 Eye contact	no specific measure to be taken
4.4 Ingestion	no specific measure to be taken

## 5. FIRE FIGHTING MEASURES

### 5.1 Suitable extinguishing media

Any common type of fire extinguishers may be used (water, ABC powder, CO2). Water sprays are especially effective in rapid cooling and damping down a fire.

### 5.2 Extinguishing-media not to be used

The use of solid jets of water in early stages of fire is not recommended, since they could help to spread the flames.

### 5.3 Special exposure hazard

# PRODUCT SAFETY DATA SHEET

For flammable and toxic fumes as well as skin contact with molten materials see § 10.

## 5.4 Special protective clothing for fire-fighter

Protect eyes and skin. Wear a mask for smoke protection.

## 6. ACCIDENTAL RELEASE MEASURES

Not applicable

## 7. HANDLING AND STORAGE

The warehouse should be dry, clean and odourless.

The Temperature inside if the warehouse should be above 0°C.

The bundles wrapping foil should be undamaged.

No direct sun rays at the bundles (packs).

No water leakage at the bundles (packs) in the warehouse.

No water on the top of the bundles (packs). Otherwise the water could infiltrate between the layers of the bundles wrapping.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

(the colour of the product as supplied)

pH

Boiling point/boiling range

Melting point/melting range

Thermal decomposition

Flash point Not applicable

Flammability

Autoflammability/Autoignition temperature

Explosive properties

Oxidizing properties

Vapor pressure

Solubility -water

- fat Non soluble

Partition coefficient (octanol/water)

White nonwoven fabric

Not applicable

Not applicable

>160°C

>300°C

Not easily Flammable (see §10)

>200 °C

Not applicable

Not applicable

Not applicable

Non soluble

Not applicable

# PRODUCT SAFETY DATA SHEET

## 10. STABILITY AND REACTIVITY

Under thermal decomposition flammable and toxic fumes can be generated.

Above 300 °C may be released: toxic and flammable gases, carbon monoxide. The generation of cleavage and oxidation products is subject to fire conditions. None burned residues and contaminated water after firefighting should be disposed of in compliance with official regulations.

Molten material should not be allowed to be in contact with the skin to which it can adhere and can cause burns.

## 11. TOXICOLOGICAL INFORMATION

No toxic reactions known under normal conditions.

Note: Under decomposition conditions; toxic fumes and contaminated water, see §10.

## 12. ECOLOGICAL INFORMATION

For transportation, storage, normal use, no toxicological effect known. Possible water pollution if components are washed out.

## 13. DISPOSAL CONSIDERATIONS

Nonwoven can be disposed of in the same way as normal household waste according to local legislation

## 14. TRANSPORT INFORMATION

The condition of the truck/trailer should be good and safe for the Nonwoven Loading and transportation.

The truck/trailer should be dry, undamaged, odourless and clean.

No water leakage at the bundles (packs) during transportation.

The bundles wrapping foil should be undamaged.

# PRODUCT SAFETY DATA SHEET

## 15. REGULATORY INFORMATION

All components in this product comply with applicable requirements to the US EPA TSCA inventory under 40 CFR Part 710 and 720.

## 16. OTHER INFORMATION

Date of issue (dd-mm-yyyy)	15-05-2017
Revision number, last edited	01, 15-05-2017
