# Get Hearing Conservation Running On All Cylinders

**Instant-Use,  
No Roll-Down Design.**

No need to roll foam before fitting.  
Just grip the stem and  
insert tip into the ear canal –  
right out of the package.

**Biaxially-Stiff Stem.**

Stem is stiff enough to insert  
yet is designed to flex sideways  
if impacted during wear.

**Tips Look Like Metal,  
Feel Ultra-Soft.**

They are made of specially  
formulated foam, so soft and  
comfortable that plugs can be  
worn all day long.

**Shaped for Universal Fit.**

The cylindrical shape  
is designed to fit and seal  
most size ear canals.

**Officially Licensed Hearing  
Protection of NASCAR®**

Workers will race to wear PISTONZ™ earplugs. They have the popular NASCAR connection. Feature a radically different shape. Plus, they're comfortable, easy to use, and have an impressive NRR of 29dB.

PISTONZ EARPLUGS – another winner from the 3M Hearing Protection Line.

**WARNING!** These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For proper use, see supervisor, User Instructions, or call 3M in U.S.A. at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.

\*Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.
