

# Mead-Hatcher

A MARTIN YALE BRAND

## MODELS #24050 & #24060 INSTRUCTIONS

**Model 24050**  
2 shelves

**Model 24060**  
3 shelves

Congratulations on your purchase of the Mead-Hatcher Printer Stand. These stands are designed to help you maximize your work area by storing your printer underneath the work surface. The stands will also hold other materials like paper, documents and even personal items. The stands are equipped with two slots on the bottom shelf to hold surge protectors which you may purchase separately. You will also note there is ample room in the slots to run the power cords and other cords to make set up much easier.

**CAUTION: The weight capacity of these stands is 75 pounds.**

Also Mead-Hatcher has supplied pressure sensitive hooks to be used as needed to control the way you arrange/run the various cords for your printer and other equipment. Simply remove the protective backing and place on the stand where you need them.
