

Clean Freeze

Freezer Cleaner

Use Clean Freeze in frozen food lockers, cold storage areas, flash freezing equipment and other areas where water cannot be used due to subfreezing temperatures. Removes dirt and debris, melts frost and ice when cleaning. Formulated to be used in temperatures as low as minus 40°F. Does not contain methanol or ethylene glycol. Nonflammable, non-poisonous and safer for users.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

It is recommended that Clean Freeze not be diluted. Mixing with water raises the freeze point and may interfere with the proper use of product in freezing temperatures. Do not use on vinyl or rubberized matting. Surface may become slippery.

Manual cleaning:

1. Spray or apply to surface to be cleaned.
2. Allow solution to remain on surface until ice/frost begins to melt and liquefy.
3. Pick up solution with mop, cloth, sponge or wet/dry vacuum.

Automatic scrubbing equipment:

1. Apply solution through equipment or apply to floors using mop & bucket.
2. Allow solution to remain on floor and scrub until ice/frost begins to melt and liquefy.
3. Pick up solution with vacuum.

FAST FACTS

- Works in temperatures as low as minus 40°F
- Removes dirt, grease, and grime
- Melts and removes frost and ice
- Use in manual cleaning or in automatic scrubbers
