

Plumbers Waxy Plug

DESCRIPTION

Black Swan's Plumbers Waxy Plug is a special blend of waxes and powders that can be used to plug small leaks in many plumbing situations. This product is meant as a temporary plug and may not hold under extreme temperatures or extreme pressure. **Plumbers Waxy Plug** will adhere to most metal and plastic surfaces as well as glass, concrete and clay. Temperatures above 120° F / 49° C will cause the wax to melt which means **Plumbers Waxy Plug** will not work. Every home or business should have at least one container of **Plumbers Waxy Plug** on hand in case of a "leaking" emergency. Water damage can be very unpleasant.

OTHER USES

Black Swan Plumber Waxy Plug can be used to make a self-forming gasket, can be used to plug a basement wall where water is seeping in and can be used wherever there is a water leak.

INGREDIENTS

Hydrocarbon Waxes, Microcrystalline (CAS #63232-60-7) Solvent Paraffin Wax (CAS #8009-03-8), Kaolin (CAS #1332-58-7).

DIRECTIONS

1. Take required amount of **Plumbers Waxy Plug** to completely cover the leaking area.

2. Knead **Plumbers Waxy Plug** until soft and pliable.
3. Force **Plumbers Waxy Plug** into cracks or holes. Hold in place for a few minutes.
4. Evaluate if **Plumbers Waxy Plug** solves the problem. If leak continues, retry the above directions. If leak continues, contact a plumber as soon as possible.
5. If leaking problem is solved, contact a plumber at your leisure. Most likely the problem has been solved on a temporary basis. A more permanent fix will be required.
6. Remove excess putty.

GHS LABEL INFORMATION

PICTOGRAM: None

SIGNAL WORD: None

HAZARDOUS STATEMENT:
May be harmful if swallowed.

PRECAUTIONARY STATEMENTS:
Keep out of reach of children.

FIRST AID:

Skin: Wash affected area thoroughly with waterless cleaner and/or soap and water. If irritation persists, consult physician.
