

Carpet Guard® and Enviromat®

Carpet Guard® & Enviromat® are temporary adhesive films made for controlled environments, construction sites, commercial & residential buildings, as well as marine and retail markets.

Enviromat® is a multi-layered and numbered adhesive pad that removes particulates from the soles of footwear prior to entry into a clean or controlled environment. Once the top layer is soiled, it can be easily removed to expose the next clean layer. There are 30 layers per pad.

Carpet Guard® easily rolls onto carpet and stays in place, offering protection for up to 45 days. Made of a tough polyethylene material, Carpet Guard® is an excellent product to protect stairways, hallways, entrances, and exits, or any high-traffic areas in homes and offices.
