

Toilet Tank Leak Detector

DESCRIPTION

Black Swan's Toilet Tank Leak Detector is a small blue dye tablet used to detect leaks in a toilet tank. Packed 200 per bottle in a moisture resistant container. To use, drop tablet in toilet tank and if water in toilet bowl turns blue, a leak is present and repairs are needed. Works quickly, showing results within minutes. Contains FDA certified non-toxic dyes. This product can help to prevent wasted water and costly water bills.

DIRECTIONS

1. Remove lid to toilet tank and drop **Black Swan's Toilet Tank Leak Detector** directly into toilet tank.
 2. Put lid back on toilet tank and do not flush toilet.
 3. Wait several minutes.
 4. If water in toilet bowl turns a blue color this indicates that a repair is needed within the toilet tank. (Tip: Most likely the leak is due to an issue with the flapper.)
