

Tuffy String

DESCRIPTION

Black Swan's Tuffy String is a round, cord form, flexible gasketing material made from pure 100% PTFE. It is used for valve stem packing and flange gasketing applications. **Black Swan Tuffy String** is highly conformable, will not seize, has excellent chemical resistance and operates from temperatures from -400° F to +600° F. Not intended for food contact applications.

DIRECTIONS

1. Clean area completely where **Black Swan Tuffy String** is to be applied.
 2. Wind **Black Swan Tuffy String** around stems, bolts, fittings, etc. Apply enough material to make a positive seal.
