

The Jonard Tools **TFS-100** portable wireless thermal stripper is designed to strip the jacket off single fiber and up to 12-strand ribbon fiber cable. With an outstanding heating time of 4 seconds, and a rugged aluminum housing, this is the perfect thermal stripper for on-the-go use. This thermal stripper also features the following:

- Strips simplex and ribbon fiber cable (2 - 12 strand) quickly and cleanly every time
- Rapidly heats to the maximum temperature in 4 seconds, with 4 levels of temperature levels
- Optional power saving mode
- Compatible with most fiber holders, including Fujikura's field and factory style holders
- Can strip more than 300 times before needing to be recharged
- Rugged aluminum housing protects for long life and durability
