

5-GAL COMBO BEAD SEATER WITH GAUGE AND TIRE INFLATION HOSE

STEELMAN®

RUGGED

Welded steel pressure tank and smooth operating brass valves that can stand up to heavy-duty use

AIR CHUCK FILL

Tank can be filled with air chucks used to inflate tires

OIL FILLED GAUGE

Oil filled pressure gauge dampens the effects of pulsations and pressure spikes while filling to give accurate readings

OVERPRESSURE SAFETY VALVE

Built-in safety valve automatically opens to relieve pressure when it exceeds recommended levels

INCLUDED HOSE TO INFLATE TIRES

NITROGEN COMPATIBLE

Pressure tank is tightly sealed and can work with both traditional compressed air as well as compressed nitrogen

HIGH WORKING PRESSURE

Designed to safely contain up to 145 PSI of compressed air or nitrogen

SPECIFICATIONS

- Welded steel tank can store up to 145 PSI of compressed air
- ASME Boiler and Pressure Vessel Certified

MATERIALS

- Steel Tank
- Brass Fittings and Valves

PRODUCT #: 61116
