

TRUE METRIX®

The McKesson TRUE METRIX® Self-Monitoring Blood Glucose System is intended for the quantitative measurement of glucose (sugar) in fresh capillary whole blood samples drawn from the fingertip or forearm. It is intended to be used by individual patients in home care settings or in facilities where the meter is not shared between patients. Featuring Triple Sense Technology™, the systems detect, analyze and correct for environmental and physiological variability, including hematocrit and temperature, resulting in improved precision and accuracy. Designed for use only with McKesson TRUE METRIX® Blood Glucose Test Strips and Control Solutions.

Features and Benefits

- No coding required
- Results as fast as 4 seconds
- Tiny 0.5 microliter sample size
- Alternate site testing (fingertip or forearm)
- Stores up to 500 results with time/date
- Event tagging; analyzes environmental and physiological factors to better interpret tests
- 4 testing reminder alarms
- Audible fill detection for blood or control sample
- Ketone test reminder
- Easy-to-use "hands free" strip release button
