Mobile Supply Cart #264651

Omnimed supply cart is constructed of 1" heavy gauge steel tubing and three solid stainless steel shelves. The top two shelves have a rim to keep items secure during transport, while the bottom shelf has a flat design for easy slide on/slid off capability for heavier items. The bottom portion of the cart also has a stainless steel back to prevent items from sliding off the lower shelf. Each shelf has a maximum capacity of 100 lbs and it bolted to the tube frame. Smooth glide 3 inch casters ensure easy mobility regardless of cart contents. This versatile multipurpose cart is ideal for any environment and will withstand years of heavy duty use. These units include a 5 year warranty.
