

Turntable Laptop Wall Desk - #291449

The Omnimed Turntable Laptop Wall Desk is constructed of heavy gauge steel that is powder coated for a durable and easy to clean finish. Designed to adapt to user position, the laptop turntable plate rotates 360 degrees and locks in a front facing position. The front panel smoothly opens and closes using an adjustable gas cylinder and has a flat key lock for security. There are openings for heat dissipation on the side of each desk and multiple entry ports for all power and cabling needs. An optional 12 CMF fan (291498) may also be used to increase heat dispersal. The unit accommodates all laptop sizes and measures 23¾ inches high by 30 inches wide and 4 inches deep. Available in beige or light grey, it is warranted for 5 years with 1 year on the gas spring and lock.
