

Sure Strip Safety Seal
#484130

Sure Strip Safety Seal - #484130

Omnimed Sure Strip Safety Seals provide a tamper evident signal to control user access. The pull tight plastic seal has a 6 inch stem which threads through the locking cap. The seal has at least 9 different locking positions and can be easily broken without the use of tools. Ideal as a visual control, seals can be used on equipment, cabinets, carts or boxes. They are sold in 100 packs and are available in red.
