

installation instructions:

# SHADOW BOXES

## Safety Instructions

Make sure to use the correct tools recommended.

Wear proper protective gear.

Follow fixture, power tools, paint manufacturers' instructions, and users manuals.

Use common sense and follow good construction practices.

### TOOL & MATERIAL CHECKLIST

- Hammer
- Chalk Line
- Finishing Nails
- Measuring Level
- Tape Measure
- Sawtooth Hangers

### SPECIAL INSTRUCTIONS & NOTES

- Thoroughly read through the installation instructions to familiarize yourself with the process before beginning installation.
- Accurately measuring and marking points will reduce the chance of unwanted damage to the installation points.
- Consider the weight of any objects placed inside hanging shadow boxes.

### STEP BY STEP INSTRUCTIONS

1. Apply sawtooth hanger to back top corner(s) of the shadow box.
2. Determine where the shadow box will be installed. If installing shadow boxes determine your spacing.
3. Once you have determined installation points and spacing, mark the hanger points along the back of the box.
4. Drive a nail into each marked point allowing the nail to remain partial exposed from the installation point.
5. Hang the shadow box over the nails using the sawtooth hangers.
