Portable Spill Berms

**PACTEC**

We manufacture packaging.  
We engineer solutions.

# BermPac®

## Portable spill containment berms

PacTec offers several portable, spill containment solutions. We call them BermPacs®. The single-piece heat-welded BermPacs® provide a safe, easy, and cost-effective solution for secondary spill containment aimed at helping you prevent costly incidents. Common sizes range from 4' to 50', but PacTec can manufacture any custom size needed. BermPacs® are offered in a variety of materials that are UV and chemical resistant, flexible, portable, lightweight, and durable. BermPacs® provide excellent spill containment for frac tanks, tanker trucks, decontamination wash pads, drum storage, and many other applications. They are also perfect secondary containment solutions.

### **Applications:**

- ▶ Frac Tanks
- ▶ Tanker Trucks
- ▶ Decon Wash Pads
- ▶ Drum Storage
