

Microfiber Cooling Towel

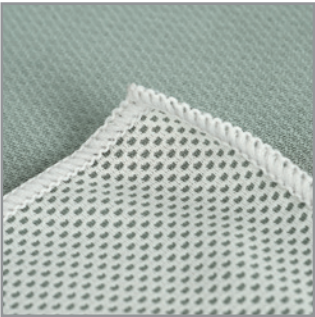

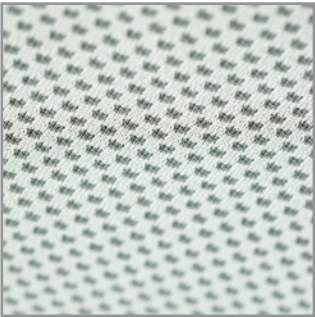

This evaporative microfiber towel is conveniently sized for on-the-go-use. The ultra-absorbent material is a simple, effective, and comfortable solution for heat stress and fatigue when at work or at play.

#785U
(V2053360U)

Key Features and Benefits:

- Premium microfiber material is soft and lightweight
- Simply soak the towel in water, wring out excess, and snap for instant cooling
- Cooling microfiber material absorbs water and creates a cooling sensation as it evaporates
- Stays cool for hours when wet and acts as a hyper-absorbent towel when dry
- Remains soft and flexible when wet or dry
- Used in construction, mining, steel work, and other industries involving hot working conditions
