

## Great economic value unit

- Impulse seal – sealing length: 10”
- Heavy-duty 1/4 hp oil pump
- 10” removable seal bar
- Compact unit
- Stainless steel body
- Easy-to-use digital control panel and easy-to-read pressure indicator
- No external compressor required

Our HVC-260T vacuum sealer is an economical 10” table-top, stainless steel vacuum chamber. Features a heavy-duty professional grade 1/4-hp rotary oil pump, this machine will stand up to prolonged and continuous use. Will also deliver a strong, consistent vacuum and seal every time. The HVC-260T is ideal for small businesses or small restaurants, hunters and fishermen processing game at home, and sous vide application.

The unit does not need an external compressor for operation. Simply place vacuum pouch into chamber with the open edge across the sealing bar. Close the lid to start the cycle and the lid will automatically open when cycle is completed. Vacuum time ranges from 10-30 seconds.

The sealer is equipped with a digital control panel for setting the sealing temperature, sealing time, drawing air time, and cooling time. Once the lid is closed, the machine automatically performs the operations which can be followed visually on the control panel. The lid opens automatically when the vacuum sealing operation is completed. The sealer also has an emergency stop button on the control panel so that abnormal processes can be stopped immediately.

Manufacturer’s replacement kit includes: 1 – heating element, 1 – PTFE cloth, 1 – sealing rubber foam pressing lip, and 1 – container of oil for the vacuum pump.
