More Details:

The SS-1519EC Series Semi-Automatic L-Bar Sealer w/ attached tunnel is a heavy duty production based unit designed to run 2 shifts per day if needed. With its heavy duty frame construction, cast aluminum seal head and Micro Knife Seal Technology you will get years of use with minimal repairs. This machine is capable of operating at speeds of 8-10 PPM.

We recommend this combo unit for POF film only and film gauge between 60-80G.

Tunnel features: Live roller rod conveyor with fully re-circulating air chamber, AC variable speed conveyor, 0-60 FPM, digital temperature control and automatic cool down with shut off.

Available in 110 volts or 220 volts. We highly recommend 220V as this will be a more efficient tunnel.
