

Ideal for sealing coffee bags

- Great for sealing coffee bags!
- Hand press operation
- No warm-up time
- Suited for sealing thicker materials
- All metal construction

More Details:

W-2510HT is a double impulse sealer geared for sealing thicker materials such as foil gusseted bags (i.e. coffee bags). The W-2510HT can seal materials up to 10" wide and 20mil total thickness producing a 10mm wide seal. Equipped with a single and double sealing selector switch providing flexibility of sealing various materials. Depending on the thickness of the material, the user has the choice of one or two elements for top and bottom heating.

Manufacturer's replacement kit includes two heating elements.

Easy to Operate:

Set the timer. Insert the bag between the two sealing bars and bring down the handle to activate sealing. Hold down for an additional 2-3 seconds after the timer light goes off to set the seal.

Specifications:

Power Supply	110V
Watts	2640W
Seal Length	250mm / 9.8"
Seal Width	10mm
Heating Time	0-2 seconds
Max Temperature	250°F / 484°C
Dimensions	13.4" x 15.4" x 6.4"
Weight (lbs)	32
