

>>> (Click bullet point **Manual** and enter your SSID across if your SSID is not broadcasted), enter your correct SSID, correct password (Tip: **Creating and connecting Level Sense Sentry** to a guest Wi-Fi access point network is advisory due to Level Sense password limitations (8-48 characters and no special characters as !@#%&\*!)) supported). This way you can still use Level Sense Sentry without sacrificing the security of your personal network) and correct email (associated with the account created in Step 1). Click **Submit**. Screen **Wi-Fi Configuration Saved** and Sentry's LED Off as a confirmation of response. If correct email was used and all SSID credentials were rightfully entered, then **Congratulations! Your LS Sentry has been claimed** and you can skip **Step 4**.

**Step 4:** Press the **Reset** button once. Yellow **Cloud** LED is going to be pulsing for 6sec. and then all four lights (Power, Cloud, Claim and Alarm) should pulsing simultaneously with same or different colors. This is your unique "Claim Code". Go to your App or [www.Level-Sense.com/account](http://www.Level-Sense.com/account) and click on **Claim device**. Enter your colors and click **Claim device** at the bottom. **Note: Color-blind people need assistance. Congratulations! Your LS Sentry has been claimed.**

**ATTENTION:** In case your credentials were wrong then red **Cloud** light will be blinking. If that happens then press and hold **Silence** button for ~6 sec. until all

four lights shine red, then click **Silence** two more times until only two red LEDs are still **ON** and wait until all LEDs go **OFF** (~11sec.) **Click Reset once and return to Step 3.**

### WPS METHOD

**Step 1:** Press the **WPS** button on your router. Wait 15 sec. **Step 2:** Press the Level Sense Sentry **Silence** button twice. The **Cloud** LED will turn from pulsing white to solid yellow. The WPS method may take up to 3 min. Upon successful connection all four lights will turn Off.

**Step 3:** Go to **Step 4**

**Note:** Extended manual and support are available at our website [www.Level-Sense.com](http://www.Level-Sense.com) and customer support.

**Step 3:** Turn your smartphone/tablet Wi-Fi ON, disable your cellular data, find and join **Level-Sense\_....** SSID. Open the network and new page "Welcome to Level Sense" will show up. Find and click the bullet point across your **2.4GHz SSID** >>>

**CONGRATULATIONS** on your most recent and useful purchase!  
*Your purchase is the greatest compliment we can get, and we keep on working to maintain your trust in Level Sense.*  
*Our product is our promise. And now let us walk you through this*  
**QUICK START GUIDE**

### HOTSPOT METHOD

**Step 1:** Go to your App Store find and install The **Level Sense** App or go to [www.Level-Sense.com/account/login](http://www.Level-Sense.com/account/login) Create your account by clicking at **New Portal & Account**

**Step 2:** Plug in the power supply provided into any AC outlet and the other end into the device. White **Cloud** LED is

pulsing. **Note:** You may Skip to **WPS METHOD** in case your router supports this feature.
