

Technical Sheet

Product

T-29 ZIRCONIA HIGH DENSITY FLAP DISCS

1. Description of Product

Dimensions(in):	4 1/2" x 7/8"
Grit:	36 - 120
Abrasive:	ZIRCONIA
Backing:	Polycotton X Weight
Max RPM:	13,000

1. Application

- For all use on metals from stock removal to light finishing
- For use on all steels
- Easier use than traditional hard grinding wheels

2. Operating instructions

- For use on angle grinders and other grinders with appropriate mounting size
- Secure the disc to grinder and give quick spin to ensure the disc is safe for use
- Best results achieved with grinding angle of 15 degree to 25 degree
- Do not use excessive pressure
- Excessive pressure can cause breakage or decreased performance

3. Handling

- If the product appears to be damaged do not use
- If product is dropped and cracked do not use
- If a section of flaps become detached, stop use of the disc

4. Safety information

- Never exceed speed marked on the product
- Fully PPE Safety equipment suggested (gloves, hearing protection, respiratory protection, safety glasses)
- Improper use can cause severe injury
- Always Use safety guard
- Dispose of any disc that gets wet

5. Storage

- Store discs flat
- Store discs in a dry temperate condition
- Do not store in overly humid or wet conditions

6. Packaging units

- Box Quantity: 10
- Case Quantity: 100
