TOPDON

GET ALL THE OBD2 DATA YOU NEED!

With the ArtiLink 400 you can quickly read and clear fault codes.

This device's wide coverage reads not only Generic Codes (P0, P2, P3, and U0) but also Manufacturer's Specific codes (such as P1, P3, and U1).

Read freeze frames and save historical fault codes, data streams and freeze frame records to keep track of your data and easily review it at any time.

Read the vehicle information (VIN, CID, and CVN).

EVEN MORE CONVENIENT FEATURES

The ArtiLink 400's DLC cable includes a built-in LED flashlight for easy connection to the OBD port. Its 2.4" color screen can display graphical data flow, making code reading more convenient. The ArtiLink 400 requires no batteries or charging with its plug and play technology. The car will power the tool for you!

TOPDON

TEST EMISSIONS WITH ONE BUTTON

The One-Touch I/M readiness button checks the exhaust fumes to help automobiles pass emissions tests.

TOPDON

MULTI-MONITORING TAKES AWAY UNWANTED SURPRISES

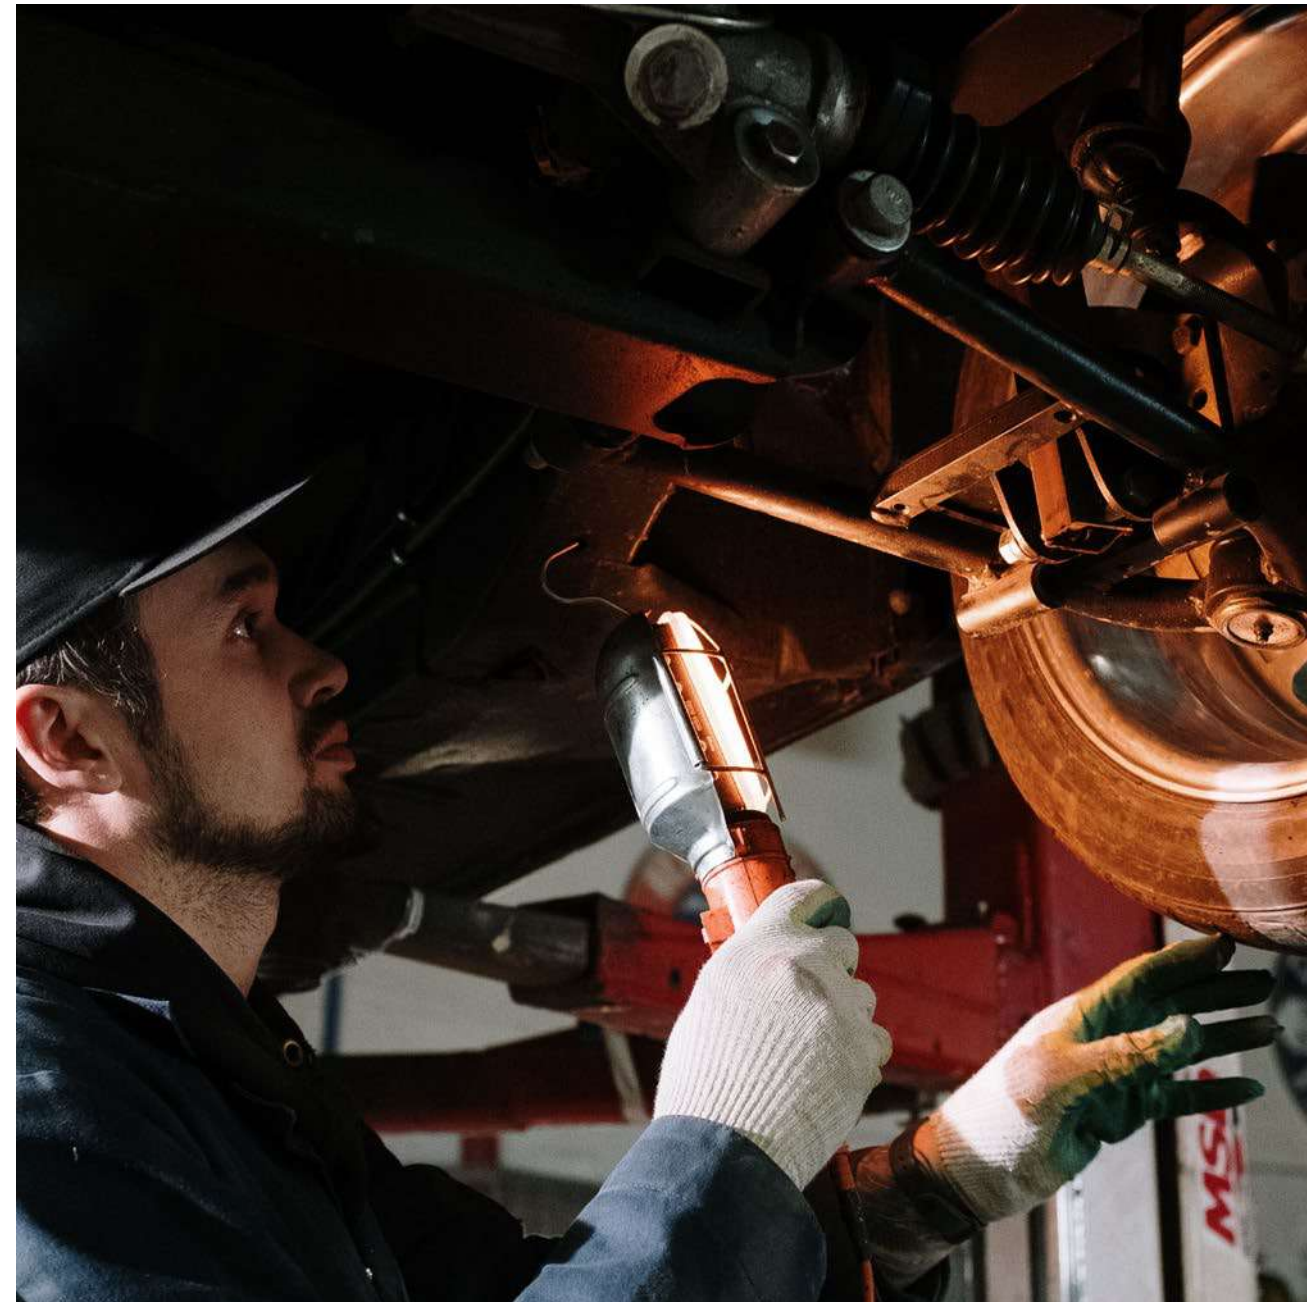

Find hidden issues before they occur. Use the ArtiLink 400 to check your misfire monitors, O2 sensors, On-Board Monitor Tests, and EVAP Systems.
