

Hurricano200

Always A Bright Idea

The Hurricano200 is a portable sine wave generator and charging station meant for our most frequently used electronic devices. It features a high-capacity lithium battery that provides a 200-watt pure sine wave power supply. This device helps you to better prepare for natural disasters, a vehicle breaking down, or even to power your devices on camping and fishing trips.

Features

- 36000 mAh Battery
- USB, AC, and DC Power Outputs
- Works in Temperatures of -4 to 104 Degrees Fahrenheit

What's in the Box

- Hurricano200
- A 15V Charger Adapter,
- User Manual
- Car Cigarette Lighter

Specs

- Battery Capacity: 36000 mAh, 129.6Wh
- USB Output: 5V/3.1A (Max)
- Charging Input: DC 15V/2A
- Charging Time: 6~7Hours (DC 5V/2A)
- DC Power: DC 9~12.6V/10A
- AC Power: 200W (Continuous); 250W (Peak)
- AC Output: AC 100V~240V 50~60Hz
- Cycle Life: >500
- Times Working Temperature: -4°F - 104°F
- Dimensions: 4.75"x4"x9.5"
- Weight: 14.2 lbs.
