

SureDry SCOPE CABINETS with Dri-Scope Aid®

**HEAT SEALED POWDER COAT STEEL PASS THROUGH
10 SCOPE CAPACITY CABINET, KEY LOCK**

SC80WTD RDP-10-DSS2305

*Also available in a
Stainless Steel Finish*

FEATURES

Scopes not
included

- **Double sided pass through cabinet allows access between both procedure and reprocessing rooms**
- In-wall system with multiple available locking options
- Positive pressure fully redundant fan system
- Industries only unit with 4 intake and 2 exhaust fans
- HEPA filter removes 99.7% of particulates, .03 Microns
- Fan run time is fully adjustable and activated each time cabinet is closed
- Easy to clean removable dual drip trays
- Holds 10 scopes with our secure adjustable mounting system
- Replaceable HEPA Filter system without removal of scopes
- Medical grade electrical system
- Tempered glass doors, one on each side
- Cabinets are delivered fully assembled
- Harloff has Industry Best 12 year limited manufacturers warranty for Sales to US and Canada

The ultimate in Endoscope drying systems is now available! SureDry Scope Cabinets feature an external HEPA filtered positive pressure drying system. Dri-Scope Aid® is the industry leading internal lumen drying system. This combination provides facilities with the assurance that they will be able to meet all current and anticipated future guidelines for external and internal drying of endoscopes, providing their patients the best possible assurance of infection prevention.

DRI-SCOPE INTERNAL LUMEN DRYING SYSTEM

- Constant Flow
- Consistent Pressure
- Repeatable Results

FEATURES & BENEFITS

- Significantly improves drying of internal channels
- HEPA filter offers a 99.97% retention rate of particles that have a size > 0.3µm
- Provides constant air delivery through all internal endoscope channels
- Short drying cycle for quick turn-around time
- Continuous venting cycle for overnight storage
- Automatic high-pressure shutoff
- Fulfills forced air recommendations
- Self-adjusting high-pressure regulation

EASE OF OPERATION

- Hands-free operation with visual display of purging times
- Simple to attach individual scope connectors
- Works with all major endoscope brands
- Disposable connectors to meet SGNA and AORN guidelines
- Dries 1 to 10 endoscopes

OVERALL CABINET DIMENSIONS

- 93.25 "H x 41" W x 28" D

The Dri-Scope Aid® Cabinet supplies HEPA-filtered air to all internal channels to aid in drying endoscopes with an automated drying cycle for improved turn-around time, and a continuous venting cycle for overnight storage. The Dri-Scope Aid® system in the SureDry Scope Cabinets provides a complete drying system for your facility.

OPTIONAL: Customizable Hang Time Monitor

Adjust the number of days your scopes hang. You will be alerted when a scope is about to expire

**Optional dimmable LED
lighting also available!**

Why is a positive pressure system important?

The unique design of the SureDry Scope Cabinet includes both top fans for intake and lower fans for exhaust. This push/pull design creates a vortex of air that flows through the cabinet ensuring maximum drying efficiency.

Intake:

Intake Airflow comes through 3 Separate HEPA filters (removes 99.7% of particulates, .03 Microns) driven by 3 fully redundant fans producing a positive pressure vortex from the top of the cabinet. This creates a circular motion of airflow evenly over all scopes.

Exhaust:

The lower exhaust fans pull the circulated air out of the cabinet ensuring the flow of air is consistent from top to bottom, providing a complete drying system for the entire scope. This push pull multiple fan system, an industry first, ensures not only a positive pressure system to meet all major guidelines but also ensures forced drying and equal levels across each and every scope across it's full length.

A Smart Choice to Meet & Exceed Current AORN, SGNA and AAMI Guidelines

Scope Storage Guidelines	Forced Air Drying	HEPA Filtered Air	Hang Scopes Vertically	Scopes Must Hang Freely, No Touching or Coiling	Easy to Clean and Disinfect	Closed Door Cabinet	Positive Air Pressure	Circulated Air Environment	Connectors — Use Disposables or Reuseables Stored w/Scopes	Dry Scopes Completely	Use Channel Drying*
