

# CLEAN SHOT CRYSTAL DRAIN OPENER™

Quickly dissolves clogs and build-up associated with grease, hair, soap scum and oils.  
Safe for use in all types of pipes.  
Proven effective and satisfying professionals for over 50 years.

## PRODUCT INFORMATION:

- Odorless drain cleaner
- Activated by hot water only
- Works in 60 seconds

pH.....	Alkaline
Form.....	Solid
Fragrance.....	Odorless
Color.....	White
Packaged.....	24/1 lb Case

## DIRECTIONS FOR USE:

Remove any standing water before use.

**WARNING: DO NOT USE** in garbage disposers, dishwashers, toilets, or pipes directly connected to these devices. DO NOT USE before, after, or with any other chemicals, or where other drain openers are present. Keep hands and face away from drain when using this product. DO NOT USE with plunger or pressurized drain opener.

**SMALL DRAIN:** When fixtures begin to drain slowly it is usually due to the build up of grease hair soap scum or bath oils. To prevent complete stoppage let hot water run, to warm lines. Add one cup of product directly into the drain opening. Let hot water run until all chemical is dissolved. Let stand one minute then flush with hot water. To keep drains working properly add 1/2 to 1 cup of product once per month. If drain is completely stopped, use cable to open drain enough to allow water to flow then add product to ensure a clean and proper working drain.

**GREASE TRAPS:** A regular treatment of 2 lbs. for each 100 gallons of capacity will greatly reduce the costly pumping and cleaning of your grease trap by keeping the grease and suspended solids in a liquid form allowing your grease trap to function properly. This product may be applied at any drain leading to the grease trap. Pour in dry and follow with enough hot water to dissolve all chemical. Allow to stand in grease traps as long as possible, overnight for maximum results.

**SEPTIC TANKS:** Not for use as septic system maintainer. Safe for use in septic systems ONLY when used in suggested quantities for above listed applications.

## IMPORTANT SAFETY INFORMATION:

### DANGER

Causes severe skin burns and eye damage.  
Do not breathe dust.  
Wash hands thoroughly after handling.  
Wear protective gloves, protective clothing, eye protection and face protection.

### FIRST AID:

**IF ON SKIN (or hair):** Remove immediately all contaminated clothing. Wash contaminated clothing before reuse. Rinse skin with water.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or physician.

**IF INHALED:** Remove person to fresh air and keep comfortable for breathing.

**IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting. Do not breathe dust. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, eye protection and face protection. Store locked up. Dispose of contents and container in accordance with local, regional, national and international regulations.
