

Introducing the
IdealLav[®]

WATCO

Useful. Innovation.

**One-piece, drop-in lav drain
includes a replaceable
grid strainer AND
below-the-grid stopper**

Watco IdealLav[®]

Do away with unsightly bathroom sink drains like these above, photographed in high-end hotels.

Easy one-piece drop-in installation—IdealLav installs through drain hole.

Slots on top of stopper enable easy rod installation (residential model).

Fits standard sinks with overflow.

Ideal for new installations or replacements.

Tube available in chrome plated cast brass or plastic.

Removable, replaceable grid strainer keeps sink looking great.

Grid strainer is installed with O-ring; easily replaceable without removing drain.

Internal stopper seats below grid strainer and holds water overnight.

Grid strainer prevents hair and other objects from entering drain.

Grid strainer can be purchased separately.

Grid strainer available in three finishes:

- Chrome plated (CP)
- Brushed nickel (BN)
- Oil-rubbed bronze (BZ)

Residential model

Shown with all included components

- Chrome-plated cast brass SKU# 815-B-CP
- Plastic SKU# 715-P-CP

Commercial model (no stopper)

- Chrome-plated cast brass SKU# 815-B-CP-NPU
- Plastic SKU# 715-P-CP-NPU

Useful. Innovation.
