Relays, Contactors & Switches > Contactors > Mil-Aero Contactors > DC Contactors > DC Contactor: Small SPST, 400A

DC Contactor Contact Arrangement: SPST NO DB

DC Contactor Contact Current Rating: 400 A

Coil Voltage (Max): 28 VDC

DC Contactor Coil Resistance: 55Ω

DC Contactor Coil Voltage Rating: 28 VDC

All DC Contactor: Small SPST, 400A (14)

Product Type Features

Arc Cover

Product Classification

Without

Relays - Contactors

Product Type	Contactor
Product Category	Electromechanical Relays
Contactor Type	Sealed
Terminal Configuration	Wire Connector
Electrical Characteristics	
Actuating System	DC
Coil Voltage (Max)	28 VDC
DC Contactor Coil Resistance	55 Ω
DC Contactor Coil Voltage Rating	28 VDC
DC Contactor Contact Switching Voltage (Max)	28 VDC
Contact Features	
DC Contactor Contact Arrangement	SPST NO DB
DC Contactor Contact Current Rating	400 A
Pole Configuration	1
Termination Features	

C For support call+1 800 522 6752

K400B1F

DC Contactors, SPST NO DB, 400 A, 28 VDC Coil Voltage, 55 Ω Coil Resistance, 28 VDC Coil Voltage, Flying Lead, 28 VDC Switching Voltage, Bus Bar, 1

Solder Process Capability Not applicable for solder process capability	Halogen Content	Not Yet Reviewed for halogen content
	Solder Process Capability	Not applicable for solder process capability

Product Compliance Disclaimer

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information they provided. This information is subject to change. The part numbers that TE has identified as EU RoHS compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, mercury, PBB, PBDE, DBP, BBP, DEHP, DIBP, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2011/65/EU (RoHS2). Finished electrical and electronic equipment products will be CE marked as required by Directive 2011/65/EU. Components may not be CE marked.Additionally, the part numbers that TE has identified as EU ELV compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, and mercury, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2000/53/EC (ELV). Regarding the REACH Regulations, TE's information on SVHC in articles for this part number is still based on the European Chemical Agency (ECHA) 'Guidance on requirements for substances in articles' (Version: 2, April 2011), applying the 0.1% weight on weight concentration threshold at the finished product level. TE is aware of the European Court of Justice ruling of September 10th, 2015 also known as O5A (Once An Article Always An Article) stating that, in case of 'complex object', the threshold for a SVHC must be applied to both the product as a whole and simultaneously to each of the articles forming part of its composition. TE has evaluated this ruling based on the new ECHA "Guidance on requirements for substances in articles" (June 2017, version 4.0) and will be updating its statements accordingly.
