#### PIDG

TE Internal #: 51861-4

TE Internal Description: TERMINAL, PIDG R 16-14 10

PIDG RING TONGUE TERMINALS

View on TE.com >

Terminals & Splices > Ring Terminals & Spade Terminals > PIDG RING TONGUE TERMINALS

Wire Size: 2050 – 5180 CMA

Stud Size: #10

Stud Diameter: 5 mm [.197 in]

## All PIDG RING TONGUE TERMINALS (421)

## **Features**

## **Product Type Features**

Shape Description	RING-041
Stud Size	#10
Wire Insulation Support Retention Type	Insulation Support

## **Configuration Features**

Number of Holes	1
Terminal Angle	180°

#### **Electrical Characteristics**

# **Body Features**

Insulation Sleeve Color	Blue
Weight per Piece	.988 g

#### **Contact Features**

Barrel Type	Closed
Terminal Orientation	Straight
Terminal Plating Material	Tin

#### **Mechanical Attachment**

Wire Insulation Support	With	
and the state of t		

## **Dimensions**

Wire Size	2050 – 5180 CMA
Stud Diameter	5 mm[.197 in]
Tongue Thickness	.79 mm[.031 in]
Overall Product Length	21.44 mm[.844 in]
	.115 – .17 in

#### Operation/Application

Compatible With Wire Base Material	Copper
Compatible With Wire Plating Material	Tin
Heavy Duty	No

## **Industry Standards**

Government Qualified	No	

## **Packaging Features**

Packaging Quantity	5000
Packaging Method	Tape Mounted

# **Product Compliance**

For compliance documentation, visit the product page on TE.com>

EU RoHS Directive 2011/65/EU	Compliant
LO NOTIS DIRECTIVE ZOTITOSTEO	Compilant
EU ELV Directive 2000/53/EC	Compliant
China RoHS 2 Directive MIIT Order No 32, 2016	No Restricted Materials Above Threshold
EU REACH Regulation (EC) No. 1907/2006	Current ECHA Candidate List: JUNE 2022 (224) Candidate List Declared Against: JAN 2017 (173) SVHC > Threshold: Not Yet Reviewed
Halogen Content	Not Yet Reviewed for halogen content
Solder Process Capability	Not applicable for solder process capability

#### Product Compliance Disclaimer

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information they provided. This information is subject to change. The part numbers that TE has identified as EU RoHS compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, mercury, PBB, PBDE, DBP, BBP, DEHP, DIBP, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2011/65/EU (RoHS2). Finished electrical and electronic equipment products will be CE marked as required by Directive 2011/65/EU. Components may not be CE marked. Additionally, the part numbers that TE has identified as EU ELV compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, and mercury, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2000/53/EC (ELV). Regarding the REACH Regulations, TE's information on SVHC in articles for this part number is still based on the European Chemical Agency (ECHA) 'Guidance on requirements for

substances in articles' (Version: 2, April 2011), applying the 0.1% weight on weight concentration threshold at the finished product level. TE is aware of the European Court of Justice ruling of September 10th, 2015 also known as O5A (Once An Article Always An Article) stating that, in case of 'complex object', the threshold for a SVHC must be applied to both the product as a whole and simultaneously to each of the articles forming part of its composition. TE has evaluated this ruling based on the new ECHA "Guidance on requirements for substances in articles" (June 2017, version 4.0) and will be updating its statements accordingly.
