

# Always in Reach Never Lost

- Give yourself some slack... KEY-BAK's Phone Tether is an easy and quick, but highly effective, solution to your phone accessibility needs. Protects from drops and theft. Fits universally all phone models that have a case.
- Built in ratchet mechanism holds reel at the desired length while a simple tug engages the retractor, pulling your phone back to position. 36" Retractable Tether gives your device range of motion to be easily accessible, yet put aside when not in use, unlike most lanyards or leashes that can get in the way. Stops at 5" intervals for maximum safety, convenience, and efficiency.
- Phone anchor sits between your phone and case at the charging port location, connecting your phone and carabiner with an anchor point for your tether that will not interfere with charging. Compatible for both corded and wireless charging.
- The retractor of a rugged polycarbonate casing. Cord made with DuPont™ Kevlar® fiber (available in two lengths with differing retraction forces).

# Phone Tether

RETRACTABLE RATCHETING TETHER

Protects from drops and theft

POLYCARBONATE CASE IS LIGHTWEIGHT, YET SHATTER-RESISTANT
