CARE AND MAINTENANCE

Marble Countertop

Clean the countertop with a soft cotton cloth dampened with warm water and then use another cloth to dry the surface. If more thorough cleaning is required, you may use hand dishwashing liquid, hydrogen peroxide, or clear ammonia mixed with water. Rinse thoroughly so there's no residue left, always dry completely.

IMPORTANT: ALWAYS DRY COMPLETELY AFTER USE OR CLEANING. AVOID USING VINEGAR AND OTHER ACIDIC CLEANERS!

Wood Cabinet

A soft cotton cloth dampened with warm water is usually sufficient for cleaning your cabinets. If more thorough cleaning is required, please use a fresh solution of mild hand dishwashing liquid mixed with warm water. After cleaning, wipe all surfaces with a clean, damp cloth. Dry immediately using another soft, clean cloth.

Avoid using harsh or abrasive cleaning products, such as, tub and sink cleansers, scouring pads, scouring powder, steel wool or self polishing waxes. Avoid using solvent-based or petroleum-based products, such as, mineral spirits nail-polish removers or paint thinners. Avoid using cleaning products contains ammonia or bleach. Avoid silicone-based cleaning, waxing, or polishing products.

Avoid draping damp clothes or towels over cabinet doors or sides as moisture can cause permanent damages, such as, peeling and discoloration to the cabinet's finish. If cabinet surfaces get wet, dry them immediately using a soft, clean cloth.
