

HyFlex®

ADVANCED MECHANICAL PROTECTION

11-539

Fully Dipped Light Duty,
INTERCEPT™ Cut Resistant
Gloves with ANSELL GRIP™

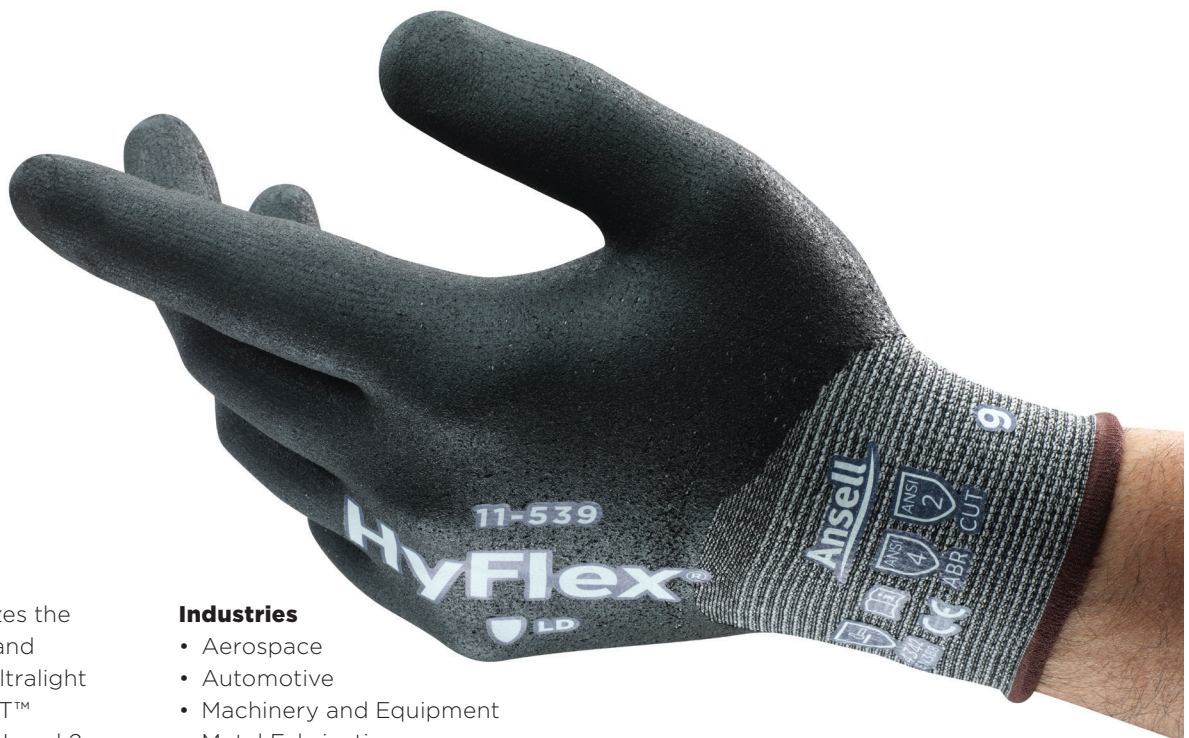

Exceptional grip performance and fully coated protection in a comfortable, ultralight weight cut resistant glove

Light Duty

Cut Protection

The HyFlex 11-539® epitomizes the convergence of protection and performance. Its 18 gauge ultralight weight liner with INTERCEPT™ yarns provides an ANSI Cut Level 2 protection. The liner also features ZONZ™ Comfort Fit Technology for breathability and freedom of movement. The fully dipped coating along with the FORTIX™ formulation provide enhanced abrasion resistance and grip. Providing all 4 advanced performance technologies in a comfortable, flexible, ultralight weight style is a game changer for applications where workers have traditionally guarded against cut risks with heavier styles limiting their dexterity and breathability.

Industries

- Aerospace
- Automotive
- Machinery and Equipment
- Metal Fabrication

Applications

- Assembly of small sharp parts
- Handling small sharp metal parts
- Light duty stamping
- Maintenance

Ansell

Performance Profile

Best-in-class Cut Resistance Technology

New-to-the-world INTERCEPT™ cut resistance yarn has been designed to exceed industry standards. This Ansell proprietary technology offers best-in-class cut protection and increased comfort and dexterity.

Fully Dip Geometry

Fully coated back of hand for comprehensive protection against snags.

Enhanced Grip Performance

ANSELL GRIP Technology™ is a coating treatment which minimizes the force required to grip oily or wet tools or materials, reducing hand and arm fatigue and improving control, safety and productivity.

Advanced Abrasion Protection

FORTIX™ Technology applies a thin, resilient and breathable nitrile foam coating, which extends gloves' working life and improves comfort in abrasive applications

Key Features

Barehand-like Tacility

Ultralight weight glove that offers unparalleled dexterity and comfort.

Comfort Fit Technology

ZONZ™ knitting technology uses selected yarns and varying stitch designs to tailor overall glove fit to enhance hand movement for higher dexterity and reduced fatigue.

Silicone Free

Silicone free design is paint and finish process friendly.

Dirt Masking Color

The glove's dark gray coating color hides dirt.
