

# AST PVR™

## PAINT AND VARNISH REMOVER

### Aerosol

[WWW.ANTISEIZE.COM](http://WWW.ANTISEIZE.COM)

#### Product Description

AST PVR™ is a methylene chloride, thick jelled stripper that quickly dissolves paint, resin cements, carbon deposits, dried oils and greases and much more. It's a real time saver for Maintenance crews that would otherwise be forced to grind away old deposits and multiple layers of paint. It saves time and money by eliminating damage caused by excessive scrapping, grinding or chiseling, and media blasting. The jelled consistency slows the evaporation rate leaving the material to stay in close contact with the surface increasing the efficiency of the product allowing it to penetrate deep into paint layers.

#### Features & Benefits

- Jelled consistency stays where it's sprayed
- Helps to reduce surface damage caused by tools gouging flange surfaces.
- Non corrosive
- Dissolves asphalt, carbon and other residues
- Easily tackles those hard to remove deposits
- Removes burned on grease

#### Directions for use

- 1) Protect any painted surfaces where you do not want the paint removed
- 2) Spray on the surface that you want to remove and allow the surface to blister which can take up to 2 minutes
- 3) We recommend using eye protection and wearing solvent resistant gloves when handling this product. Read the warning labels on the can and the MSDS Sheet.
- 3) Using a soft edge scraper, remove the blistered material
- 4) For heavy deposits a second application may be needed

#### Typical Properties

Property	Value
Color	Clear
Specific Gravity	0.9
Vapor Density (air=1)	>1
Water solubility	nil

#### Cautions

Read all Safety and Warning information on labels and Material Safety Data Sheets prior to use. All products should be tested and evaluated for a particular purpose prior to use. Protect surfaces which you do not want to be affected. Solvent resistant glove and eyewear must be worn. Use with adequate ventilation. Do not use in confined areas.

#### Product Limited Warranty

This information is based on information we believe to be reliable and accurate, but no guarantee of its accuracy is made for a particular application. We urge and recommend that Users pretest their application prior to incorporating the product into use and assume that the User will conduct such testing. Also see warranty statement on website.
