CARBURETOR PARTS CLEANER — COMPLETE KIT

CC3K

This product contains No Chlorinated Solvents, No Phenols, No Cresylics, and is Non-Corrosive. For additional information, contact the company at the address below. Here's a complete, easy-to-use small parts cleaning kit for the do-it-yourselfer, hobbyist, professional mechanic . . . wherever there is an occasional need to thoroughly clean small metal parts.

Kit includes container, 3 quarts of cleaning solution and parts basket. Simply place the metal parts to be cleaned in the basket and lower it into the solution! For most parts, a 20-minute soak will clean grease, grime, carbon, varnish, and paint. Stubborn spots may need some brushing and a longer soak time period. Gunk® Carburetor Parts Cleaner is compounded to clean metal. Do not attempt to clean rubber, plastic, or other non-metallic parts, gaskets, etc. Avoid any contact with painted surfaces. For large cleaning jobs, ask for Gunk® HYDRO-SEAL® 2 or Gunk® Parts Washer Solvent.

APPLICATIONS:

- Complete Kit...Thoroughly Cleans All Types of Metal Parts at Home or Shop
- Loosens Carbon Deposits
- Dissolves Grease, Oil & Grime
- Loosens Paint and Varnish

DIRECTIONS: NOTE: DO NOT PLACE GASKETS, RUBBER, OR PLASTIC PARTS IN SOLUTION. CC3K is intended for use in enclosed non re-circulating solvent cleaning tanks or related equipment. This parts cleaner is for use only in a container with lid in place to eliminate product evaporation during storage and use. Not recommended for use in re-circulating parts washers, as pump damage may occur. 1. Place parts to be cleaned into parts basket. 2. Lower basket into solution. Parts must be completely submerged. Put lid in place to eliminate evaporation. 3. Allow parts to soak for 20 minutes. 4. Brush heavy soil deposits, if necessary. 5. Rinse parts in water. Use care to avoid splashing on any painted or non-metallic surfaces. NOTE: the rinsate from product use (which may be hazardous to the environment, ground water, or sewer systems) should be accumulated and disposed of according to all laws and regulations. 6. Dry parts thoroughly before re-assembly. 7. Replace cover until ready to reuse solution. See DISPOSAL below for spent solution disposal.

STORAGE, HANDLING & DISPOSAL: Store in a cool, dry, well ventilated area. Do not store or use near sparks, open flame, or other ignition sources. Store only in the original container. Use only in a well ventilated area. Wear protective rubber gloves and safety goggles. Deliberately inhaling concentrated vapors can be harmful or fatal. SAFEGUARD OUR ENVIRONMENT . . . Disposal of spent solution or rinse water in water courses, sewers, or on the ground may be prohibited. Such disposal is prohibited in California. Proper disposal includes collecting and evaporating the rinse water and recycling or disposal of any residue in accordance with state and local law.
