

Kensington's exclusive SmartFit® system takes the guesswork out of installation. This revolutionary patented system allows workstation accessories to be easily customized to users of all shapes and sizes. The result is an accurate set up that maximizes the benefits of products.

### YOUR PERSONAL FIT IN 3 EASY STEPS

#### 1: MEASURE

With every SmartFit® product, you will receive a hand chart in the box. This hand chart will assist you in finding your specific SmartFit® color and customize your fit.

How do you Measure?

With your right wrist on the baseline of the hand chart, lay your entire hand over the diagram. The tip of your middle finger will point to your SmartFit® color.

#### 2: ADJUST

The next step is to adjust the color wheel on your SmartFit® product to your specific color, and you're ready to go.

Not all SmartFit® products have a color wheel; please make sure you read the instructions to understand how to adjust each SmartFit® product.

#### 3: FIT

The final step is to validate the fit of your SmartFit® product at your workstation. Because we make many different SmartFit® products, please refer to the user guide in each product box.
